RE: **Reach – SVHC EU Regulation EC 1907/2006**

Dear Valued Customer,

In order to comply with our responsibilities, we have reviewed the **REACH** Regulation as applicable to the products we supply. According to the regulation, the products that are supplied to Industrial Steel & Wire are considered "articles" and as such are not required to be registered.

We have reviewed the current listing of "SVHC's" and have determined that none of the items on the list are present on/or in the products we supply. Our suppliers have confirmed to us that the product(s) they manufacture are subject to periodic independent testing to ensure the continued compliance with the **REACH** Regulations.

Sincerely,

A handwritten signature in black ink that reads "Brian Furlong". The signature is written in a cursive style with a long, sweeping underline.

Dr. Brian K. Furlong  
President
