

Dear Valued Customer,

Today Illinois, as well as several other states, has initiated shelter in place orders for all residents. It is likely the rest of the country will follow.

As a critical part of the supply chain to manufacturers serving healthcare, food service, agriculture, transportation, and other essential industries, ISW and all its locations will remain open, to support our country's effort to fight Covid-19.

Our strategically positioned warehouses are full of prime product and the majority of our supply chain is currently unaffected by these changes. Please don't hesitate to contact us for all of your carbon steel, stainless steel, and non-ferrous metal product requirements.

Best Regards,
Dr. Brian K Furlong
Industrial Steel & Wire Company
